

Shiwal Singh

Product Management · B2B SaaS · Customer Experience Platforms

Lucknow, India | singhshiwal@gmail.com
[linkedin.com/in/shiwal](https://www.linkedin.com/in/shiwal) | shiwal50.github.io/portfolio

SUMMARY

Product-focused professional with 5 years in B2B SaaS across CRM, marketing automation, and channel-partner platforms. Initiated and shipped 3 AI-driven product features with measurable impact — including a 30% support ticket reduction and AHT reduction from 40 to 25 minutes. Participated in sprint ceremonies, wrote user stories, and collaborated directly with product and engineering teams. Transitioning full-time into APM/PM roles, bringing frontline user empathy, structured McKinsey-trained problem-solving, and proven delivery ownership.

EXPERIENCE

HighLevel (GoHighLevel)

Customer Support Representative · Remote, US Market · Apr 2025 – Feb 2026

- Identified top-10 CRM automation failure cluster from 500+ monthly tickets; escalated with structured evidence — fix shipped in 6 weeks, cutting that category ~30%
- Co-proposed and shipped AI Support Agent for white-label clients in 6 weeks — 30% ticket drop, 20% CSAT increase
- Proposed and co-shipped internal AI tool for support agents — AHT reduced from 40 to 25 minutes, CSAT +5%
- Participated in release validation cycles — coordinated UAT, documented acceptance criteria, tracked post-launch defect closure
- Translated client-reported bugs into structured reproduction steps and user stories for engineering

Vartopia

Technical Support Engineer · Punjab, India · 2024 – 2025

- Owned Jira tracking for 3 concurrent feature workstreams — backlog hygiene, priorities, scope creep flags
- Led sprint ceremonies (planning, grooming, retros) with engineering, QA, and client stakeholders; maintained MOM documentation
- Caught two silent blockers early, preventing mid-cycle derailment on a key feature release
- Synthesised requirements from sales and CS into product specs, reducing stakeholder-to-engineering back-and-forth

Maropost (JetSend)

Client Support Specialist · Punjab, India · 2023 – 2024

- Self-initiated discovery of systemic transactional delivery failure — analysed 80+ tickets, structured evidence, brought to PM team before formal escalation
- Led end-to-end delivery of JetSend transactional messaging feature in under 6 weeks — requirements, sprint coordination, QA sign-off
- Delivery-tracking fix cited by 2 enterprise clients at contract renewal

eClerx

Analyst · Chandigarh, India · 2021 – 2023

- Built KPI dashboards enabling 2-week-earlier detection of quality degradation vs previous process
- Identified process gaps through recurring issue analysis — contributed to escalation-reduction initiatives

KEY PRODUCT INITIATIVES

AI Agent · HighLevel	Shipped	30% ticket drop · 20% CSAT increase · 6-week cycle
Internal AI Tool · HighLevel	Shipped	AHT 40 → 25 min · CSAT +5% · 4-week cycle
JetSend · Maropost	Shipped	Zero to GA in 6 weeks · 80+ tickets analysed · self-initiated discovery
GoHighLevel Teardown	Portfolio	9-section product teardown · shiwal50.github.io/portfolio

SKILLS & TOOLS

Product	User story authoring · Acceptance criteria · PRD writing · Backlog management · RICE · Kano · MoSCoW · Roadmap thinking · AARRR · North Star · A/B testing
Delivery	Agile/Scrum · Sprint planning · Grooming · Retrospectives · Cross-functional execution · Stakeholder management · MOM documentation
